

REMARKS

Attorney for Applicants have carefully reviewed the outstanding Office Action on the above-identified application. Applicants submit that the application, as amended herein, is in now in condition for allowance.

The Office Action, in asserting the 35 U.S.C §112 rejection has focused on an obvious typographical error. Applicants have amended the formula for *Octyldodecyl PPG-3 Myristyl Ether Dilinoleate* shown in Specification at page 7, at lines 13-16 by deleting in the first CH_2 substituent. Additionally, Applicant has corrected the typographical error in the formula on page 4, lines 24-28, Claim 1 and in the Abstract.

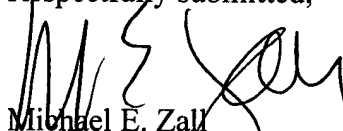

It is evident from the text of the application that these were typographical errors.

All issues raised in the Office Action are believed to have been addressed. Reexamination is requested and favorable action solicited.

Dated:

July 09/2005

Respectfully submitted,

Michael E. Zall
